Comments: I have been in this area many many years and don't want to see Holland Lake area commercialized . It is near 2 trail heads leading into the Bob Marshal Wilderness, one low near the lake few have used , and a really popular one right above the lake. On these trails you can go down Gordon or the other trail into the Southfork of the Flathead in The Bob. No one should commercialize a beautiful lake and 2 trails leading into one of our biggest wilderness areas in the State of Montana!
