Comments: The holland lake re recreation area should not be more commercialized. The lake has enough pressure on it as it is. The state needs more areas like holland lake that is limited to occupancy. This is a small lake. Salmon, seeley, and placid have already grown to more than they can handle. Those three lakes are full to capacity all the time making it hard to enjoy a trip to any of them. Holland lake is a great place that is not to overcrowded. Lets keep it this way. People are not affraid to pay the extra it costs to camp there as it is well worth it. Commercialization will only wreck the. Nice place it is now.
