Title:

Comments: Dear Forest Service,

Please do not allow the development of the lodge, trailhead or the addition of docks. This will only create more growth, organic marketing and traffic to the area.

I grew up near this lake, and have been camping here every year, most recently with my own children. My love runs deep for this place and its untouched beauty. I was in the lodge this summer and adore its quaint beauty. I am hoping to keep visiting and appreciating its wildness and lack of development. It truly is my favorite place, and I hope you can keep the structures the same.

Please keep it at is. My family would be so appreciative.

Thank you,
Madeline P.
