Comments: I do not agree with the proposed improvements to Holland Lake Lodge. We will lose our pristine beautiful lake and the wildlife will definitely be affected. There is not room on the leased 15 acres of forest land for all that is planned for the site. We do not need a big resort in our little community, it is not wanted nor needed. I do realize the lodge owners want to get out from under this but having a big resort is not what is needed. Where would all the sewage go?? All the garbage, our little piece of heaven will be forever ruined. Our loons would have nowhere to nest and live, bear, deer, elk, bald eagles and all the other wildlife would definitely be affected. The trail to Holland Falls and the other trails would be demolished by all the foot traffic, it is already a popular place and to have a resort with all the rooms and bunkies that are planned it would ruin the area.
