Comments: Once we let big corporations buy up Montana lands, pretty soon we Montanans will not be able to live or enjoy our natural lands. I am so against doing this to our beautiful state and our lakes . I don't want to see my state like other states. We will become like other states, so expensive to live in. Build resorts in other places, keep these chain of lakes like they are now, where we can enjoy the wilderness, see the wildlife, which by the way are losing there home spaces, going into towns, being killed because of human invasions. Keep Montana like it is and if those that want a resort, go to another state. We like Montana the way it is
