Comments: The proposed idea is to build a large resort structure on Holland lake. The lake is known for its rural, quiet beauty. Kayakers, swimmers, fisherman, and motorized boat users all feel safe to enjoy this lake because of the quietness it brings. Not only people but loons and other water fowl inhabit the lake as well. If a larger resort company is built on this lake the safety and quietness goes away. It brings more traffic down not only the two lane dirt road but the two lane highway through our valley. Not to mention how detrimental it would be to the wildlife habitats and the impacts on the environment. It brings more boats and kayakers out on the lake. It takes away the peace that this lake was given to us to enjoy. People come to this valley and this lake to see less people and to enjoy the scenery. With this idea you are taking away the scenery and adding people to it. I've lived in this valley for 22 years & I grew up in that lake. So speaking from a locals perspective this idea is terrifying for our valley.
