Comments: Any expansion of facilities or services at Holland Lake Lodge should be limited to protect the lake and its environs. Motor boats and jet skis already impair the quality of other visitors' experience, so the lodge should be prohibited from providing motorized watercraft to its guests. Similarly, the lodge should not be permitted to rent or otherwise provide snowmobiles to its guests.

Expanding facilities and services tends to increase visitation and use-"If you build it, they will come." Holland Lake-the lake itself and also area trails-is already a popular recreation site. Please consider reservation systems (similar to the campground) and other means to ration use to prevent overcrowding or dominance by any one group (i.e., motorized boaters, horse use on trails, etc.).

Thanks for the chance to comment.
