Comments: I object this proposed development.

I'm a life-long Montanan and part of my childhood was having my parents drive us up to Holland Lake for the weekend. The lodge, the cabins, the nearby trails, and campgrounds speak to a time in our state that was much more simple. The forest was wonderfully preserved, it was calm and peaceful, and it helped sustain the quiet and natural beauty of Holland Lake. I now take my children to Holland, much for the same reasons.

This massive proposal for expansion is unacceptable. I fear it will ruin the ongoing intent of the lodge and cabins. It will turn the area into a high-end retreat that further prices out families looking for a weekend getaway. Additionally with the number of trees proposed to be cleared in the area I worry it will forever alter the tranquility and beauty that this area holds.

I would please ask the FWP and any other governing body that is reviewing this proposal to deny it.

Thank you.
