First name: Emily

Last name: Knackstedt

Organization: Western Area Power Administration

Title: Realty Specialist

Comments: Dear Mr Broyles,

We are in receipt of the notification dated August 30, 22 by Ms Valerie Horncastle regarding the Paonia Winter Wildlife Habitat Improvement project. We appreciate the notification and would respectfully request that Western Area Power Administration (WAPA) be given notification 30-60 days in advance of work commencing in Township 49 North, Range 6 West, as WAPA owns and operates a transmission line in that location called the Curecanti-North Fork 230-kV Transmission Line. We request notification in order that we may carefully coordinate our own maintenance and operation while your partnership is conducting work on their improvement project within WAPA's transmission and access rights-of-way.

Sincerely,

Emily Knackstedt
