Comments: This proposal to allow POWDR to buy and build a useless outta-stater magnet is disgusting and a disgrace to our state. This isn't an "Improvement & Expansion" plan but another sly plot to keep locals and native Montanans out of the local area but attract outta-staters and their money in.

These corporations are invading our state, buying and creating a monopoly on small towns, and killing the way of life Montanans treasure. This idea or "proposal" is against the values of keeping our parks clean and safe. Leave Holland Lake alone!
