Comments: Our family would come here to the shores of Holland Lake 54 years ago. Well I was just playing in the water I'm sure my parents remarked about how pristine it was in the area. I have hiked extensively in the Bob Marshall including a five night trip to upper Holland Lake and peaks that surround it.

Not that I have any more say than any other wilderness advocate, I have worked 8 summers in the 80's and 90's for the USFS, employed 1 summer mop-up, 2 summers initial fire attack, 2 summers Missoula Fire Depot, 2 summers preburn and one summer measuring seedling growth. It is paramount the public can voice dissent in this capitalistic venture. Picture twice as many speedboats on this beautiful lake!
