Comments: We live about 20 miles from Holland Lake... and have been here for over 40 years.

My concerns about this proposed development are from several directions.

1. The increase of traffic on 83 concerns us all as the road conditions deteriorate with added use, and increased traffic means an increase in the numbers of accidents... vehicle vs vehicle, vehicle vs wildlife, vehicle vs tree.
2. An environmental assessment needs to be done as you can be assured that increased numbers of people, vehicles, boats, trail users, etc will have a huge effect on the wildlife and water quality.
3. The comment period, and information to the community seems too limited for proposing or considering such a large development.
4. This is a quiet lake with historic buildings that I would hate to see altered.
