Comments: The last time I visited Holland Lake, I saw a moose swimming in the lake. What's going to happen to that moose if a big corporation comes in, tears up forest service lands, and turns Holland Lake into a tourist hot spot? What's going to happen to all of the rest of the animals currently living relatively undisturbed in the area that would be torn down? Whatever happened to the value of small town charm and protecting our forests and natural places from excess harm? I sincerely hope this plan is dismissed and this beautiful area remains protected and respected. After all, isn't this the Last Best Place?
