Comments: I oppose the proposed expansion of Holland Lake Lodge as outlined in the Master Development Plan. The proposed expansion seeks to turn Holland Lake into a resort destination, which will undoubtedly change the lake's quaint, quiet character beloved by so many.

Having visited Holland Lake nearly every year for the past 25 years, I agree the Lodge is in need of repair and updating. However, a proposed development of this magnitude- which states it will triple the Lodge's current occupancy rate- also has the potential to permanently and negatively alter the surrounding environment.
