Comments: To Whom it May Concern:

My family has been going to Holland Lake for 25 years. My husband & Dilampi; I, our children & Dilampi; their families enjoy every summer there (we call it Memory Lake), our granddaughter was proposed to at the falls, a grandson was married at the lake & Dilampi; my husband's parents celebrated their 60 wedding anniversary at the lodge. We just returned from a 15 day vacation at the lake as we do every year & Dilampi; met some wonderful people enjoying their vacation at their most favorite recreational site.

We are very concerned & proposed Holland Lake Expansion Complex being considered. It would be very harmful to the area & print the pristine Holland Lake that so many people love & print the pristine Holland Lake that so many people love & print the pristine Holland Lake that so many people love & print the pristine Holland Lake that so many people love & print the pristine Holland Lake that so many people love & print the pristine Holland Lake that so many people love & print the print the pristine Holland Lake Expansion Complex being considered. The Forest Service should consider the tax paying citizens that want Montana to stay Montana. I appreciate your time & Double Consideration.
