Comments: POWDR will only want to make money on this project without regard for how it affects this valley.

This is the Crown of the Continent ecosystem, one of the LAST ecosystems on earth and it should be treasured and preserved, NOT sold to corporate development interests. Let them build somewhere else that is not smack in the middle of a pristine wilderness. PAWS UP resort is a great example of how big time outsiders want to exploit the treasures of this state without offering anything in return... They're renters ship in and ship out, leave trash in the woods and have no regard for local culture. DO NOT ALLOW this project.
