Title:

Comments: I strongly oppose commercial development and expansion of Holland Lake Lodge. I also oppose installing floating docks and expanding recreation rentals.

I support repairing and restoring the historical Holland Lake Lodge, keeping the existing footprint. Preserving a piece Montana's history is contributing to education. A focus on clean water for existing wildlife such as grizzly bears, moose, loons, turtles, osprey and various existing species should be emphasized, not overlooked for profit.

I propose implementing a noise ordinance that would limit the use of watercraft and recreational vehicles with more than 10 HP engines.

Thank you,

John Abbott
