Comments: Hearing about this POWDR company is so disheartening. They will turn this area into a luxury destination out of price range for the normal/average Montanan. It is so hard to see areas in Montana that have been loved and cherished by locals for generations sold to multimillion dollar companies to turn into something we cannot afford. The Seeley/Swan area does not currently have the community to staff a luxury resort. No affordable housing = no service industry to work this resort. Holland Lake is one of the best kept secrets of this area. Picturing the lake filled with boats & cabins, the trails being over populated, and the land being reworked for a luxury resort truly brings tears to my eyes. Thank you for your time.
