Comments: Turning Holland Lake into a resort will damage the eco system irreparably AND will change this montana jewel into a massive tourist site which will rob Montanans of a generationally sacred space. PLEASE do not allow out of state interest to develop this treasure and keep Holland Lake safe from big monied interests. Paws Up is a prime and HORRIBLE example of resorts that are detrimental to wildlife and the environment- having worked there, I can say it's just absolutely disgusting how they rip up the land while preventing real Montanans from enjoying the land we all love. My family votes NO on turning our beautiful home into a resort toilet.
