Comments: I oppose the purchase of Holland Lake Lode by POWDR. The lodge is small and has traditional rustic Montana charm and it's affordable for locals and has a low environmental impact. The forest service is supposed to protect our forests and serve people. POWDR will not do this! They will cut down trees, destroying more forest, and expand the lodge, increasing negative human impacts on the land and lake. This will make the lake and area more crowded, while out pricing locals. Holland lake will become another playground for out of state rich people who use and abuse Montana's natural resources. Protect this forest and holland lake by revoking POWDRS approval!
