Comments: My family has a yearly tradition on camping (in tents) at Holland Lake for the past 23 years. It started when I was 10 years old. In the past 23 years, the traffic to Holland Lake has noticeably increased. This year, all the camping spots were full and we were forced to spend the night car camping in the over flow parking. Due to traffic and lack of camping, we were forced to spend the rest of our vacation outside of the forest.

This proposed traffic will make the busy Lake a nightmare. The area can't handle additional traffic. Not every inch of montana needs to be constructed into a playground for the wealthy.

Attached is an image from this summer. A view of the Lake that most people don't get to see.
