Title:

Comments: I strongly OPPOSE this project!! I was born and raised recreating in the mountains surrounding Holland Lake, same as both my parents were. This project will have strong negative impacts on Holland Lake and the wilderness areas surrounding it. This area is already heavily used by locals and the increasing numbers of tourists that are attracted to the solitude that the area provides. A resort of this size will prevent my children and future generations from being able to experience the way Montana was meant to be! Please do not allow out of state big business to ruin our lands and way of life!
