Title:

Comments: This expansion would ruin what the forest service has sought to preserve for over a century! The lodge itself was granted a special release in order to be seen from the lake! Except for couple of cabins already built, no structure was to be seen from the lake. It made things beautiful. The trees, undergrowth, distance... all made to keep a small, incredibly special lake what it was made to be, a jewel in the world. To allow the over development by out of staters of this area will destroy the wildlife, serenity, peace, tranquility, value and all of our love and memories of this golden place of our lives. Please don't let this happen! It will be a travesty of conservation, of justice, of the right thing to do for the people who "own" the lands of the forest service. Please protect this lake! Thank you!
