Comments: My family and I are just back from a camping trip at Holland Lake, where we learned of the proposal to expand the Holland Lake Lodge. I am opposed to this proposal. Before I learned of it, I was commenting to my husband about how rare it is to have a lake that is not more developed. It is an extra gift that there is a public campground that makes this beautiful lake available to all of us. I am not opposed to the lodge as it currently operates. However, the proposed expansion would destroy the serenity of this special place, with negative impacts on plants, wildlife, water quality, and air quality.

Please do not approve this expansion.

Thank you for your consideration.
