Comments: I believe that the Holland Lake Lodge development project is a bad deal for the Swan valley and Montana. As a native Montanan and property owner at the lake, I see congestion problems already with both boat and vehicles. Holland Lake is a small lake and is accessible to all people wether they power boat, paddle boat,bike or swim. A development like this will bring to many people,to much traffic, and more interference with wildlife. Save the true last place!
