Comments: I feel that the expansion of the current facility will bring unwanted and unsupported wear and tear on the Swan Valley. There are new "guest ranches" and other facilities popping up in the area. These facilities cater to the wealthy. Currently the rooms at Holland Lake Lodge are \$300-\$340 a night depending on single or double occupancy. Where will the prices go when the facility is remodeled. The report indicated that the new owners want to keep the "soulful" feel and make the resort a family friendly facility. The facility does need upgrading and resolving deferred maintenance issues; however, the facility needs to remain affordable for all.
