To Whom It May Concern:

Holland Lake is one of the MOST special places left in Montana. My family owns a cabin in the area. We have watched the evolution of the human impact currently affecting the lake and associated area, especially over the past 10 years of dramatic increased usage. It absolutely is heart breaking to think that a development of this size is even being considered for the Holland Lake ecosystem. I cannot in any way, shape or form believe that this development would be positive for the lake, the surrounding environment and the people that have loved and enjoyed this area.

Holland Lake is a pristine, secluded lake, that has remained special partly due to lack of commercialization. I am extremely concerned that this topic is even up for discussion. I am completely opposed to ANY further development along this lake. Restore and remodel the current buildings if necessary, but do NOT allow development and commercialization of this property.

I am unable to attend the meeting due the lack of notice and communication regarding this issue. I am happy to participate in further discussions.

Do the right thing, DENY the DEVELOPMENT!!!!!!
