Comments: Condon is one of the most peaceful places in Montana and this project will be the beginning of taking that away from us. Getting to stay at Holland Lake Lodge is a unique, amazing experience. It is the perfect escape from reality. Part of the reason why, is because they limit the people allowed on site. I grew up spending a lot of time in the Condon/Seeley area. It would be devastating if the owners sold out to a corporation. Why wouldn't a big corporation want to plant a resort at one of the most beautiful places in MT? That would be a huge money maker for them. Please, let's keep Montana as peaceful as possible while we can.
