Comments: Hello,

I respectfully believe this project idea is not in the peoples interests. We have seen too many times in the State of Montana where big companies buy land to profit off the natural beauty of Montana. While doing this, they are destroying the beautiful land that should be protected by the federal government, not sold off for profit by the mega rich. I was raised in Eastern Montana. My family would come to Holland Lake often to enjoy the natural beauty. We came to Holland Lake to escape the everyday world. I proposed to my wife at Holland Lake. To go through with the proposal is a disgrace to the people of Montana and to Holland Lake it self.
