Comments: Hello

I'm an 8 th generation Montanan from Gallatin Valley. I now live in Missoula and have long loved the swan valley. Please do NOT allow greed to over develop Holland lake. This is an environmental nightmare that will create too much traffic in this area. However equally important it destroys an important piece of our MT culture. Small family resorts where we build memories and work to preserve nature in that area. Yes allow updates to facility but no large Big Sky resorts all due to greed. The owners of the lodge are poor customer service folks. They ought to visit Chico hotspots as an example for how to care for people and the place they love. Giving them bigger will only bring more tourists and price out locals.
