Comments: I would hate to see this amazing landscape, wilderness, small getaway turned into another high dollar eye sore. If people want a "Montana getaway" they can check out Paws Up, resort at Rock creek or go-to Flathead lake or whitefish among other places in Montana. By letting this development come into this area it will ruin the draw for tourists (regular folks, not the weather kind this will cater to) and not to mention it will eventually force the 2nd, 3rd and 4th generation cabin/land owners to have to sell because they no longer will be able to afford the taxes. We are ruining everything MT is and stands for by allowing places and companies like this to take over our state.
