Comments: I lived most of my adult life in Missoula and Holland Lake remains one of my most favorite places in the world. It is a beautiful pristine lake with great camping and hiking options. Holland Lake should NOT become commercialized. It is still accessible to locals at this time and should remain a haven for all not just the ones who can pay for it. Montana has plenty of other resort towns and places for tourists. Holland Lake needs to be a place of untouched beauty for the next generations. Please do not approve the new development proposal.
