Comments: I have many fond memories of camping at Holland Lake as a child with my family in the 70s and 80s. It was a magical place then, and a place to look forward to seeing every summer. I revisited again this last August for a 2 night campout, and was happy to see that not much had changed. Please don't allow this massive resort to be built here. It is out of place and isn't really being built for the enjoyment of the general public...this is all about individual and corporate greed of the worst kind. This will attract hordes of people who have the means to pay hundreds of dollars per night, and will ruin the peace and beauty of Holland Lake for those that prefer it in its natural state. It made my heart sick when I read the 36 page project proposal. Please put a stop to this project now.... the loons and I will thank you.
