Comments: Hello,

I have recreated at Holland lake for 6 years every summer. It's a easily accessible area with a wonderful hike. The views of nature are amazing. Development would destroy the views and natural feeling of this place that has become a favorite for Missoulians and others nearby. We don't need to ruin it with out of state developers who care little for Montana and it's residents. Keep this area as natural as possible. Right now it has a great balance of nature and some structures. Let's not ruin that please. There are plenty of other resorts nearby.
