Comments: Hoplland lake has been a destination for our family for years. Each year we would book campsites and enjoy a week disconnected enjoying the beauty that is MT. In recent years the campground and lake have been so full it has been hard to get a spot to camp and enjoy Holland Lake.

The once calm lake where my son learned to swim and kayaks been full with motor boats and jet skis making the water choppy.

All this to say the lake is full and can barely sustain the level of activity currently present. Adding more developed space for staying at a resort lodge will further increase the activity in the area making it no longer the peaceful outdoor destination to disconnect and enjoy family time.

Parking at the trailhead is already an issue and the line to the boat dock gets longer each year.

Please preserve the nature which we still are able to enjoy by not allowing a destination resort (which would not be affordable for most MT families) to be developed on Holland Lake.
