Comments: It is outrageous to think bringing a resort in Holland Lake area is acceptable. Sure you may think "But it's going to bring jobs to a lot of people" when in reality, there are a million places hiring now and you can fill those positions.

Secondly, this is a recreational area my family has been going to every summer for the last 25 years. My family is not the only ones who enjoy the lake and nature in that area. Bringing a resort would ruin the times we may have up there with tourists and out of staters.

You must be absolutely crazy to think this is a good idea. If this passes, more will come and local Montanans will fight back.
