Comments: I am saddened to learn of this proposed expansion. Bigger is not better! Montanans know this. The lodge is privately owned, right? If it needs updating then they are responsible for those costs themselves. To impose it on our community in the name of 'bigger is better', will greatly impact the nature we go there to enjoy. I always camp when I spend time there and that gets more challenging every year due to more people wanting to do the same. Even still, I would much rather deal with that than a resort on the lake which will only bring in more and more people to the detriment of the area we all love Holland Lake for. Money cannot buy that. Leave it be.
