Comments: I am concerned about the Holland Lake Lodge project and how it is being rushed through! We need a full environmental report on the impact of this project on the infrastructure in the area. How is this going to affect the environment of the Bob Marshall Wilderness area? Why is there not a full 30 days of public comment? I am in favor of a possible remodel of the existing buildings but this expansion does not seem like it will not negatively impact the area in a very negative way!

Thank you
