Title:

Comments: I would NOT like to see this area developed into a resort. Everyone knows that means that only people with money will be able to stay there and enjoy the beauty of the area. They close it off to anyone not paying. We are losing more and more of our public use spaces that everyone should be able to enjoy. It also means clearing a large area of trees, etc to make the space for cabins/rooms. I don't think this helps our environment at all since half of the state is being burned already by wildfires. I'm sure the decision on how to move forward will come down to money but I hope there are some people left here that still want natural spaces left as they are.
