Comments: I'm writing to object to the commercial development plan for Holland Lake. Maybe we can't stop the purchase (may be done already), but, we the people, all own the air, trees, wildlife corridor, wildlife habitat and food sources, health benefit of open space and recreational benefits. Please do NOT approve the proposal and allow this beautiful area, which many of us Montana residents enjoy, to be changed forever, so a privileged few get rich. Money cannot buy everything. Once this area is built up and ruined, it will never recover. And, is this corporation even owned by US citizens? Susan R.
