Comments: Our families have day tripped to Holland Lake since the 1970s, enjoying the wildness and accessibility to such a treasured place. We have brought our out of state relatives there to show them them a rustic, Montana experience. We've paddled, swam and hiked there countless times - even wished there was less motorized water use. It is a pristine treasure. Commercializing this area with expanded parking lots, buildings and more water toys will exploit the very beauty we are all attracted to. This project needs to be thoroughly studied for the negative environmental and aesthetic impact this kind of use will bring. Please leave some of Montana for those of us who have made this state home and want to show our children's children the less commercialized Montana.
