Title:

Comments: Good morning,

Please consider the locals who will no longer be able to access recreation, wildlife and peace of mind if this proposal is granted. This is not what we want in Montana, commercialization...

The entire Swan valley is going to turn into one big Paws Up resort that no one besides the uber rich can access!
Just say no!

Montanan who is sick of big corporations coming in and buying up the land so we can't afford to use it anymore,

Madison Huffman
