Comments: Concerning the Holland Lake Lodge proposed expansion.

I believe the plan for expansion is unbelievably large and in my opinion not in keeping with the footprint of the area. I would like to see the Forest Service conduct a broader impact study and entertain other use designations for better public use of the Holland Lake area. The lodge is on forest service lease and as such should be a resource considered for public use that will preserve the area. Environmental impact and public access should be the very first consideration, not private profit.
