Comments: I fully support this Improvement and Expansion Plan.

I am appalled that the media and so many people on Facebook view this as bad development. What do they think should happen with the Lodge? Powdr's plans to improve and restore will ensure that all of us (the Public) can enjoy the Lodge and Holland Lake for many generations to come. Change is inevitable. Montana has been found. We that live here also reap the rewards of tourism and visitors. We cannot stop people from moving in. I have stayed at the Lodge, both in the rooms upstairs and the cabins, many times. While people may think they're charming (and they are to some extent), they need a lot of work.

I especially like the Powdr plans to have some year round operations. And that they're building employee housing. Additionally, I researched the company, and love that they take pride in making donations within each community that they operate in. I hope "locals" realize how much they're investing in this, and how huge that is to have Holland Lake stand for the long haul, long after many of us are gone.
