First name: Denise

Last name: Boggs

Organization: Conservation Congress

Title: Director

Comments: This project should NOT be approved, much less 'analyzed' in a CE. The FS is begging for a lawsuit using a CE. This old lodge should also be reviewed under the NHPA. The description talks about the "local community". That community includes wildlife, plants, trees, the local ecology. This area is not just for rich bored people with nothing else to do. The FS should not rubber stamp this horrible project. As a multiple use agency the FS must consider the needs of non-humans.
