Comments: Hey, I camp yearly at Holland lake (and just backpacked up to salmon falls this summer!) and am concerned about the impact an out of state fancy schmancy resort will have at this lake. It's a wonderful campground for families, with lots of tree's and quiet. The proposed plan will increase use, increase noise, decrease the tree cover and density and make it prohibitively expensive for regular Montana families to ever use the lodge.

Montanans are being priced out everywhere-please don't destroy a local icon of beauty and camping for money and glam.
