Title:

Comments: My family and I are very against this , we are already having our wildlife pushed outta there homes just like locals due to to many ppl moving here buying up all land building on it.. us locals strive to keep our wildlife safe and in all reality it's there home first we need to respect that... No more destruction of our land that they share with us to begin with us .. it's not about money anymore never will be with us natives and locals that have great grandma and grandpa's homesteaded here.. a stop to destroying our last best kept secret state of Montana needs to stop.. it's not just a no, it's a BIG NO ..
Make Montana beautiful again Dave our wildlife..
