Comments: I'm am against this proposal for so many reasons but top two reasons are this area is a loved spot by so many local Montana to get away and enjoy nature with relatively low cost. Our family has been going to Holland for many years and with the population growth it has become more difficult to find a spot. A resort would make it impossible for sure.

The second concern that needs to be considered is what would this do to the local housing market that is already difficult for people that live and work in the area. Montana is not for Sale....it is for all of us to share and enjoy the untouched outdoors.

Please do not pass this!
