Comments: Thank you for the opportunity to comment on this proposal.

I urge you to deny this proposed expansion because it will substantially erode the recreational value of Holland Lake. The rustic, uncrowded, and undeveloped land surrounding Holland Lake is an essential part of the experience and value of the lake. This development will fundamentally change this for the worse. Another development plan may not, but this one is simply too aggressive and disruptive.

Additionally, I urge you to conduct full environmental impact assessment - this proposal deviates significantly from the current development and use of the area - there are serious concerns about environmental impact that should be assessed and evaluated.
