Comments: As a Montana local and visitor to that area often I am AGAINST the Holland Lake Lodge expansion. I feel it is too large of an expansion and definitely AGAINST the 20 foot encroachment to the lake! The cabins should be at least double that distance! The number of cabins is also a concern and about double what it should be to maintain the look and feel of a wilderness setting. Instead it will just be a huge private urban facility planted on one of Montana's few remaining natural view settings.

And what about the increased road traffic on that dirt road? Will we have to pave the road next??
